

*Next steps:
Developing HTA for sustainable healthcare systems*

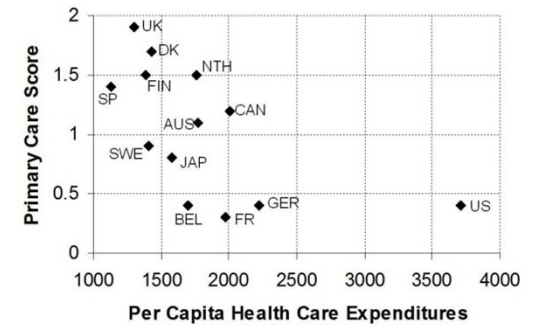

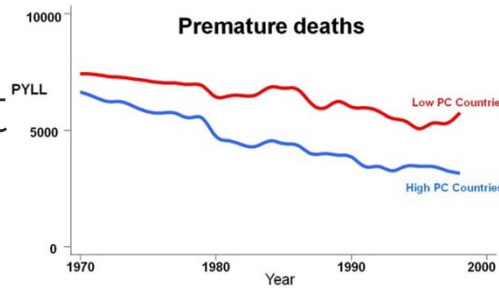

Perspectives on Primary Care

HTA for Health System Sustainability
8th Annual meeting of HTAi
Rio de Janeiro 2011

*John-Arne Røttingen, Professor, Former Chief Executive, Norwegian Knowledge Centre for the Health Services
Chair of the Board, Alliance for Health Policy and Systems Research*

Primary Care - Knowledge needs

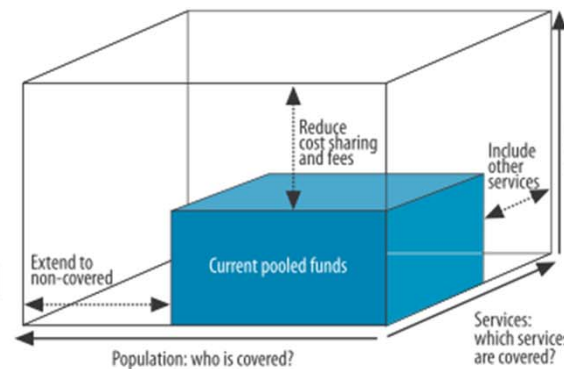

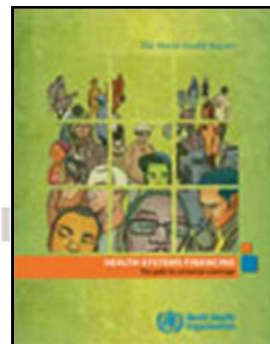

- Primary care is effective and efficient
 - Barbara Starfield

- Integrated care
 - Chronic Care model (Ed Wagner)

- Primary health care reforms

Primary care - Consequences for HTA

- Our processes
 - User/community involvement
 - GP involvement
- Our methods/approaches
 - Focus more on implementation/integration
 - Link to other efforts for improving quality of care
 - Assess full clinical pathways (guidelines)
- Our topics
 - More on public health issues
 - More on service delivery and organization of care
 - More on health system issues
- Our community
 - Join forces with health services and systems research
